

Jiggly Wire

PVC Coated Spring Lock Wire

by Jiggly Greenhouse®

JW66S - Greenhouse Covering Attachment Wire

- PVC Coated, reusable steel zig-zag wire designed for attaching greenhouse coverings when used with Jiggly Greenhouse® Aluminum Locking U-Channels.
- Installation is quick and easy, requiring no special tools or equipment - just snap the Jiggly Wire into the Jiggly Greenhouse® Aluminum Locking U-Channels.
- Extra thick white PVC coating absorbs minimal heat and provides extra protection from rips and tears when installing greenhouse covering materials.
- Designed For Repeated Use - Simply unsnap the Jiggly Wire from the U-Channel and remove, reposition and reinstall as often as needed.

JW66S - Greenhouse Covering Attachment Wire

Jiggly Wire by Jiggly Greenhouse® is a PVC coated, reusable steel spring locking wire designed for quick, easy and effective attachment of poly film, shade cloth, insect netting and various other materials to greenhouses, hoop houses or other outdoor structures. Jiggly Wire is designed to be used with Jiggly Greenhouse® Aluminum Locking U-Channels, allowing the wire to simply snap into place and secure whatever covering is being installed. Jiggly Wire can be used in a wide variety of applications, ranging from simple DIY greenhouses to large-scale commercialized growing operations.
